Description of the Manulife Risk Meter

The risk level is represented by the Manulife Risk Meter, a 5-level risk continuum from 1 to 5, which signifies the risk profile of the fund. The more sensitive a fund is to the change of market conditions, the more volatile it is and therefore the higher its risk level is indicated by the Manulife Risk Meter. Likewise, a fund less sensitive to market condition changes has lower volatility and is therefore regarded as bearing lower risk on the Manulife Risk Meter.

Each risk level reflects the corresponding risk profile as follows:

Remarks:

The 5 risk levels in the Manulife Risk Meter are determined on the basis of a number of factors relating to the underlying investments of funds, including the types of asset classes and their respective target weightings, the breadth and geography of diversification, the historical volatility and capitalisation of the relevant markets, investment strategy and the presence of any guaranteed investment returns.

Please note that the volatility and the risk level of a fund may change over time and the future market volatility may not follow the historical volatility. The composition of the underlying investments of each fund may be different from that of the referenced market index. The Manulife Risk Meter and the risk level of each fund will at least be reviewed quarterly.

While a fund of a higher risk level may be more volatile, the lowest risk level does not mean risk-free.

有關宏利風險指標

風險水平由一個具有五個級別的宏利風險指標表示，以表示基金的風險程度。當宏利風險指標內所標示的風險級別愈高，就代表該基金對市場狀況的轉變愈敏感，波幅愈大；相反，當宏利風險指標內所標示的風險級別愈低，該基金對市場狀況的轉變愈不敏感，波幅愈小。

每個風險級別反映對應的風險程度如下：

註解：

宏利風險指標內五個風險級別的釐定，乃基於多項因素，包括基金旗下資產類別及其相應的目標比重、投資項目的覆蓋範圍及地域分布、有關市場過往的波幅及資本總額、投資策略和基金有否提供回報保證。

請注意基金的波幅及風險級別或會因時不同，將來波幅未必跟隨過往幅度。每隻基金的旗下實際投資項目成分與相關市場指數或有不同。宏利風險指標及每隻基金的風險級別將會最少每季度檢討一次。

較高風險級別的基金之波幅可能較大，而最低風險級別並非代表沒有風險。

The 5-level risk categorization is provided by Manulife Investment Management (Hong Kong) Limited.

Information in this description of the Manulife Risk Meter and the risk level of each fund are for reference only and should not be regarded as investment advice on, an offer to sell, or a solicitation for an offer to purchase any financial products and services. Neither should such information be regarded as a substitute for professional advice.

The risk level of fund provided in this material may be different from the risk ratings provided by the bank(s) or intermediaries. Please refer to the relevant risk ratings provided by the bank(s) or intermediaries through which you take out the fund(s).

五級風險分類由宏利投資管理（香港）有限公司提供。

上述宏利風險指標之概述資料及每隻基金的風險級別只供參考，不應被視為投資意見、建議或游說買賣任何金融產品及服務。有關資料亦不應被視為代替任何專業的意見。

本文件所提供的基金的風險級別可能與銀行或中介人所提供的不同，請參考協助您購買基金的銀行或中介人所提供的有關基金風險評級。

Fund prices may go down as well as up. Past performance information presented are not indicative of future performance.

基金價格可跌亦可升，過往業績數據並非未來業績的指標。
