Important Notes 重要提示

- 1 Manulife Hong Kong Series - Manulife Stable Fund (the "Fund") invest primarily in USD-denominated and settled short-term deposits, as well as short-term and high quality money market instruments of varying maturities issued by governments, quasi-governments, international organizations, and financial institutions, which may involve concentration, money market instruments, bank deposits, credit, credit ratings, and credit rating downgrading, interest rates, volatility and liquidity, valuation, sovereign debt, credit rating agency, emerging markets, liquidity, currency and foreign exchange risks. Certain investors may also be subject to the risk relating to RMB hedged share class.
 - 2 The Fund does not guarantee distribution of dividends, the frequency of distribution, and the amount/rate of dividends. Dividends may be paid out of capital and/or out of gross income of the Fund in respect of Inc and Inc (N) classes, while charging/paying all or part of the Fund's fees and expenses to/out of capital of the Fund. This represents a return or a withdrawal of part of an investor's original investment amount or capital gain attributable to that amount. Distributions will result in an immediate decrease in the net asset value of the relevant units. Class AA (RMB) Inc (N) Hedged Unit and Class AA (RMB) Acc Hedged Unit are subject to higher distribution risks than other non-hedged unit classes.
 - 3 There is no guarantee of capital or interest.
 - 4 Investment involves risk. The Fund may expose its investors to capital loss. Investors should not make investment decisions based on this material alone but should read the offering document for details, including the risk factors, charges and features of the Fund and its unit classes.
