

Important Notes:

1. **Manulife Global Fund – USD Income Fund** (the "Fund" or "Manulife USD Income Fund") invests primarily in fixed income securities and fixed income related securities denominated in U.S. Dollar of issuers globally. In meeting its investment objective, the Fund may invest more than 30% of its net assets in issuers located in the United States, which may involve credit rating and downgrading, credit, interest rate, sovereign debt, convertible securities, subordinated debt, collateralized/securities products, high-yield bonds, geographical concentration and currency risks and risks associated with investments in debt instruments with loss-absorption features (including contingent convertible bonds).
2. The relevant distributing class of the Fund does not guarantee distribution of dividends, the frequency of distribution, and the amount/rate of dividends. Dividends may be paid out of income, realized capital gains and/or out of capital of the Fund in respect of Inc share class(es). Dividends may be paid out of realized capital gains, capital and/or gross income while charging all or part of their fees and expenses to capital (i.e. payment of fees and expenses out of capital) in respect of MDIST (G) and R MDIST (G) share class(es). Dividends paid out of capital of the Fund amount to a return or withdrawal of part of the amount of an investor's original investment or from any capital gains attributable to that original investment, and may result in an immediate decrease in the net asset value per share in respect of such class(es) of the Fund.
3. The Fund intends to use financial derivative instruments ("FDIs") for investment, efficient portfolio management and/or hedging purposes. The use of FDIs exposes the Fund to additional risks, including leverage risk, management risk, market risk, credit risk and liquidity risk.
4. Investment involves risk. The Fund may expose its investors to capital loss. Investors should not base on this material alone to make investment decisions and should read the offering document for details, including the risk factors, charges and features of the Fund and its share classes.

Manulife USD Income Fund

manulifeim.com.hk

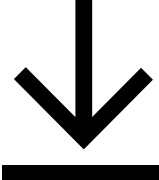

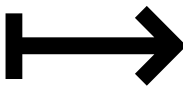

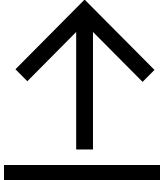

A Hi-Fi solution aiming to enhance income with stability

Combining Opportunistic Credit, Securitized, and US Government allocations, our High-quality Fixed income solution aims to provide a high, sustainable income opportunity with low volatility. Instead of tilting to a specific fixed income asset which is subject to credit risks (e.g. high yield bonds) or interest rate risks (e.g. treasuries), our unconstrained approach invests across bond sectors, credit qualities and capital structures with the aim to deliver a smoothed investment journey across market cycles.

High quality income + credit flexibility

Opportunistic Credit	Securitized	US Government Bonds
<ul style="list-style-type: none"> High return potential Opportunity set: Preferred securities 	<ul style="list-style-type: none"> Yield premium over US Treasuries (UST) Opportunity set: Agency mortgage-backed securities (MBS) 	<ul style="list-style-type: none"> Help enhance portfolio resiliency Opportunity set: US Treasuries

Dynamic asset allocation to navigate market cycles

 <p>Rate cut</p> <p><i>Locking in yields and adding duration</i></p> <p>↑ Fixed-coupon securities (e.g., Senior unsecured debt)</p>	 <p>Stable rate</p> <p><i>Managing volatility and focusing on regular income</i></p> <p>Combination of fixed and fixed-to-floating rate securities</p>	 <p>Rate hike</p> <p><i>Enhancing portfolio yields and lowering duration</i></p> <p>↑ Fixed-to-floating rate securities (e.g., Junior subordinated debt)</p>

Preferred securities:

Investment grade assets with attractive yields and returns

- Highest yield among major US IG fixed income sectors
- Highest 10-year annualized return among major US IG fixed income sectors

Yield and return of major US investment grade fixed income assets

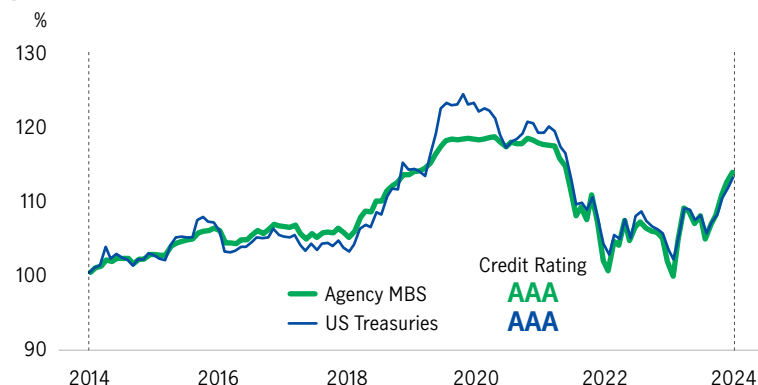

Source: Bloomberg, as of September 30, 2024. Preferreds represented by ICE BofA US Capital Securities Index. US IG Corp, Agency MBS and US Treasuries represented by Bloomberg indices. The above yield refers to yield-to-maturity and does not represent the distribution yield of the Fund and is not an accurate reflection the actual return that an investor will receive in all cases. For illustrative purposes only. Past Performance is not indicative of future performance.

Agency MBS: quality yield premium over treasuries

Agency MBS offer higher yield with similar volatility vs UST

Agency MBS share same credit rating and similar performance with UST

Source: Bloomberg, as of September 30, 2024. Agency MBS and US Treasuries represented by Bloomberg indices. Performance chart based on monthly data with indices rebased to 100 as of May 31, 2014. Credit rating based on Moody's. The above yield refers to yield-to-maturity and does not represent the distribution yield of the Fund and is not an accurate reflection of the actual return that an investor will receive in all cases. Volatility represented by 10-year annualised standard deviation based on monthly data. For illustrative purposes only. Past Performance is not indicative of future performance.

Manulife USD Income Fund

Due to rounding, the total may not be equal to 100%. Diversification or asset allocation does not guarantee a profit nor protect against loss in any market. Sector and credit rating breakdown are subject to change at any time and are for illustrative and reference purpose only.

Dividend schedule

Record date	Ex-dividend date	Annualized dividend yield*	
		AA (USD) MDIST (G)	R (USD) MDIST (G)
1/31/2025	2/3/2025	6.64%	9.46%
12/31/2024	1/2/2025	6.62%	9.35%
11/29/2024	12/2/2024	6.52%	9.18%

* Manulife Investment Management, as of January 31, 2025. Applicable to AA (USD) MDIST (G) and R (USD) MDIST (G) Class. A positive distribution yield does not imply a positive return. Dividend rate is not guaranteed. Dividends may be paid out of capital. Refer to important note 2. Please note that a positive distribution yield does not imply a positive return. Investors should not make any investment decision solely based on information contained in the table above. You should read the relevant offering document (including the key facts statement) of the fund for further details including the risk factors. Past performance is not indicative of future performance. Annualised yield = $[(1 + \text{distribution per unit/exdividend NAV})^{\text{distribution frequency}} - 1]$, the annualised dividend yield is calculated based on the latest relevant dividend distribution with dividend reinvested, and may be higher or lower than the actual annual dividend yield.
