### Important Notes:

- 1. Manulife Global Fund China Value Fund ("Manulife China Value Fund" or the "Fund") invests in equity securities of companies with substantial business interests in the Greater China region, which may involve risks relating to equity market, geographical concentration, political and regulatory, Mainland China investment, Mainland China tax, small cap, liquidity and Volatility, currency risks, and is subject to greater risk than investments in more developed economies or markets.
- 2. The Fund intends to use financial derivative instruments ("FDIs") for investment, efficient portfolio management and/or hedging purposes. The use of FDIs exposes the Fund to additional risks, including leverage risk, management risk, market risk, credit risk and liquidity risk.
- 3. Investment involves risk. The Fund may expose its investors to capital loss. Investors should not base on this material alone to make investment decisions and should read the offering document for details, including the risk factors, charges and features of the Fund and its share classes.

2025 Q4
